## Environmental Policy of Burgess Beds Ltd

Burgess Beds Ltd believe that businesses are responsible for achieving good environmental practice and operating in a sustainable manner.

We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.

It is our priority to encourage our customers, suppliers and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations.

Our policy is to

- Wholly support and comply with or exceed the requirements of current environmental legislation and codes of practice.
- Minimise our waste and then reuse or recycle as much of it as possible.
- Minimise energy and water usage in our buildings, vehicles and processes in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.
- Operate and maintain company vehicles (where appropriate) with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport and car sharing as appropriate.
- Apply the principles of continuous improvement in respect of air, water, noise and light pollution from our premises and reduce any impacts from our operations on the environment and local community.
- As far as possible purchase products and services that do the least damage to the environment and encourage others to do the same.
- Assess the environmental impact of any new processes or products we intend to introduce in advance.
  - Use only certified and reputable suppliers
  - Use suppliers where fillings can be traced to source
  - Ensure fabric suppliers comply with REACH
  - Reuse all waste wood products to heat the divan and upholstery area
  - Plan to put extra wood burner in mattress area to replace current heating system which in turn reduces energy output
  - Recycle waste Foam and fillings which are collected by a recycle company
  - Use FSC™ certified Timber in our Headboards, divans and bedsteads.
  - Recycle waste paper products in required recycle bins
  - Record our energy usage per kilo of textile (relevant to all organic and non organic products)
  - Set target goals for reduction in energy usage and review every 6 months. Initial target goal to start December 2017.
  - Target goals and improvements are to be recorded in a separate action plan
